KTMP Public Comments

FY23

Date	Name	Means of Public Comment	Public Comment	Date Comment First Presented to TAC/TPPB	Public Comment Topic	Jurisdiction
7/15/2023	Vickie Cloud	Email	Public comment received from TxDOT via Email: Since Killeen and Harker Heights and Copperas Cove are growing and growing a lot, we need a ring road. We need a ring road that can circle the Triplex I will call it. This way drivers if it connected to I35...esp truck drivers can go on the ring road to get past the Triplex...instead of going through it or smaller towns. Also if the trucks need to come into the city to deliver then they can cut off of the ring road go to the delivery place and drop off and go bk onto the ring road...going east or west or north or south depending on which direction they need to go. I have lived in many towns that have ring roads...it helps those who get lost to get bk on it and go around on the ring road to get to the lace they want to get off...making it further out around the Triplex... Also we need bike paths...I call Killeen... "Sidewalk City". I love it. Where there are none. Plz get some in...but also bike paths bikes can't really ride on the sidewalks...but the sides of the roads can have bike paths...in some cities, bikes are in the towns so people can rent them and then return them...I'm not sure Killeen is ready for that...It's growing fast thogh...and I know the ring road would be very helpful.	8/2/2023	General and BPAC	TxDOT and COK

Grant Opportunities

- **Promoting Resilient Operations for Transformative, Efficient, and Cost-Saving Transportation (PROTECT) Program**

Deadline: August 18, 2023

Description: The vision of the PROTECT Discretionary Grant Program is to fund projects that address the climate crisis by improving the resilience of the surface transportation system, including highways, public transportation, ports, and intercity passenger rail. Projects selected under this program should be grounded in the best available scientific understanding of climate change risks, impacts, and vulnerabilities. They should support the continued operation or rapid recovery of crucial local, regional, or national surface transportation facilities. Furthermore, selected projects should utilize innovative and collaborative approaches to risk reduction, including the use of natural infrastructure, which is explicitly eligible under the program. Also called nature-based solutions, these strategies include conservation, restoration, or construction of riparian and streambed treatments, marshes, wetlands, native vegetation, stormwater bioswales, breakwaters, reefs, dunes, and shade trees. They reduce flood risks, erosion, wave damage, and heat impacts while also creating habitat, filtering pollutants, and providing recreational benefits. Projects in the PROTECT Discretionary Grant Program have the potential to demonstrate innovation and best practices that State and local governments in other parts of the country can consider replicating.

Estimated Funding Available: \$848,000,000

Award Floor: \$100,000

- **Multimodal Project Discretionary Grant Program (MPDG)**

Deadline: August 21, 2023

Description: Three funding opportunities: the National Infrastructure Project Assistance grants program (Mega), the Nationally Significant Multimodal Freight and Highways Projects grants program (INFRA), and the Rural Surface Transportation Grant program (Rural). Funds for the INFRA, Mega, and Rural funding opportunities will be awarded on a competitive basis for surface transportation infrastructure projects – including highway and bridge, intercity passenger rail, railway-highway grade crossing or separation, wildlife crossing, public transportation, marine highway, and freight projects, or groups of such projects – with significant national or regional impact, or to improve and expand the surface transportation infrastructure in rural areas.

Estimated Funding Available: \$15,000,000,000.00

Award Ceiling: \$2,850,000,000.00

- **Reconnecting Communities and Neighborhoods Grant Program (RCN)**

Deadline: September 28, 2023

Description: The Department of Transportation is combining two major discretionary grant programs, the Reconnecting Communities Pilot (RCP) and Neighborhood Access and Equity (NAE) programs, into one Notice of Funding Opportunity (NOFO). Together, this combined program is known as the Reconnecting Communities and Neighborhoods (RCN) Program. The primary goal of the NAE Program is to assist economically disadvantaged or underserved communities for planning and construction activities.

Funds for the fiscal year (FY) 2023 NAE grant program are to be awarded on a competitive basis to support planning, capital construction, and regional partnership activities that aim to restore community connectivity through the removal, retrofit, mitigation or replacement of highways, roadways, or other infrastructure facilities that create barriers to mobility, access or economic development.

The RCN NOFO solicits grant applications for the Reconnecting Communities Pilot discretionary grant program, established by the Bipartisan Infrastructure Law (BIL), and for the newly created Neighborhood Access and Equity discretionary grant program, established by the Inflation Reduction Act (IRA).

Under the combined RCN Program, USDOT offers three grant types:

Capital Construction

Community Planning

Regional Partnerships Challenge

- **Community Planning Grants**

Description: These grants support planning activities for future construction projects and innovative community planning to address local transportation challenges. Eligible activities include public engagement, feasibility studies, and other planning efforts. Up to \$50 million of RCP funds and \$135 million of NAE funds are available for community planning grants in FY 2023.

Estimated Funding Available: \$185 Million

[Click Here](#) for more information

- **Capital Construction Grants**

Description: These grants fund projects aimed at removing, retrofitting, mitigating, or replacing existing transportation facilities that create barriers to community connectivity. The projects should focus on improving access, reducing environmental harm, and enhancing transportation infrastructure. Up to \$148 million of RCP funds and \$2.57 billion of NAE funds are available for eligible construction activities in FY 2023.

Estimated Funding Available: \$1.15 Billion

- **Regional Partnerships Challenge Grants**

Description: These grants support regional collaboration and innovation in addressing persistent regional challenges related to equitable access and mobility. Projects must involve two or more eligible applicants and demonstrate regional coordination, leveraging of resources, and policy alignment. Up to \$450 million of NAE funds are available for regional partnership grants in FY 2023.

⁵Fiscal Constraints are determined by inputs into the TRENDS model as approved on March . Short range funding is estimated funding for FY2019-2028 and Long Range Funding is estimated funding for FY2029-2045

⁶Funding/Fiscal Constraint Notes (Cat 2, 7, 9):

Short Range funding amounts (0-10 years) come from the latest TxDOT Unified Transportation Plan (UTP).

Long Range funding amounts (10-15 years) are determined by outputs from the TRENDS model (see note ⁵)

How projects in the list are funded:

White - Projects in the TIP are listed first, their total estimated cost is deducted from the total UTP fiscal constraint.

Green - The remaining UTP funding is then allocated to the next highest ranked projects from both the Roadway and Livability tracks until the funding cap is reached. Green colored projects are projected to receive funding within the first 10 years of the planning period.

Blue - Projects following the Short Range funding section are allocated funds from the estimated Long Range MTP funding from highest ranking on down until the funding cap is reached. Blue projects are projected to receive funding during the last 15 years of the planning period.

Orange - When all estimated funding sources have been exhausteted, any remaining projects are listed from high to low in the Regionally Significant Unfunded list. Orange projects are NOT projected to receive funding during the planning period

Yellow - Projects that are unscored are listed at the bottom of each section and have no estimated timetable for receiving funding.

Note on Roadway vs Livability Tracks:

Projects in the Livability Track are allocated funding from the latest Category 7 and Category 9 funding estimates.

Porjects in the Roadway Track are allocated funding from the latest Category 2 and Category 7 funding estimates.

Current UTP Estimates by Category (2021-2030):

Category 2 - \$189,232,733

Category 7 - \$61,317,869

Category 9 - \$3,940,100

Current MTP Estimates by Category (2030-2045):

Category 2 - \$115,800,000

Category 7 - \$216,900,000

Category 9 - \$41,600,000

*Note - funding for projects in this list is not guranteed unless the project is listed in the TIP, all other project funding is subject to change.
