Mr. McGill also mentioned that our project scoring working group will be providing an updated project criteria guideline.

6. Discussion and Action Item: Regarding approval of Resolution 2023-04 supporting April 2023 as National Distracted Driving Awareness Month.

James McGill presented Resolution 2023-04 supporting April 2023 as National Distracted Driving Awareness Month. Uryan Nelson highlighted the statistics surrounding distracted driving in Texas and Mr. McGill added that some new statistic for 2022 were released the previous week.

Bob van Til asked about the best way to get this information out for public to be aware of it.

d) T40-13a – Georgetown Railroad Trail Phase 1

James McGill provided a brief overview of the TIP and MTP. Mr. McGill presented the proposed amendments which include three projects changing their let dates to FY2024 and one project revising the scope of work, project cost, and changing the let date. Mr. McGill shared the proposed amendment schedule with the TAC and stated that the time and location of the public meeting will be determined soon.

Jason Deckman asked for clarification of the proposed amendment to the Georgetown Railroad Trail Phase 1. Bryan Neaves asked for clarification about the proposed scope of work change for the Royal Street Improvements Project.

9. Discussion Item: Regarding the new Carbon Reduction Program (CRP).

James McGill provided an overview of the new Carbon Reduction Program and the funding amounts KTMPO will be receiving under the program. Mr. McGill explained that since funds under the CRP will lapse if not used that TxDOT has encouraged all MPOs to reprogram currently funded projects with CRP dollars. Mr. McGill shared a proposed funding scenario staff developed that would transfer funding from Category 7 & 9 to CRP funding for several projects currently funded in the TIP.

Kristina Ramirez made a motion to recommend approval of the staff recommended funding scenario for the Carbon Reduction Program, seconded by Jason Deckman; the motion passed unanimously.

10. Discussion Item: Regarding Category 7 & 9 Project Funding.

James McGill shared with TAC that TxDOT is requesting all MPOs to program 90% of available funding over the next 4 years. Mr. McGill showed the available funding balances for Categories 7 & 9 and presented 3 different funding alternatives based on the next projects in the MTP.

The floor opened for discussion. Several TAC members asked if the projects shown in the scenarios had updated project estimates and if they were ready to start being developed. TAC members also commented on recent inflation trends and discussed whether it would be better to keep some funds in reserve to cover increased costs. TAC members also asked if the alternatives would be final if selected. Staff stated that the alternatives could and probably would be revised in the future especially once the next project call was completed. The TAC recommended that staff inform the Policy Board that these alternatives are intended to act as placeholder scenarios in response to TxDOT's request.

Kristina Ramirez made a motion to recommend approval of project funding alternatives #3, seconded by Andrew Zagars; the motion passed unanimously.

11. Discussion Item: Regarding appointments to the Bylaws, Safety, and Project Scoring Workgroups.

13. Discussion Item: Regarding an update on the possible MPO Boundary Expansion.

Uryan Nelson provided information about the possible MPO boundary expansion. KTMPO has met with both the TxDOT Waco and Brownwood Districts and while there is no opposition to expansion from a planning perspective there are some concerns on the financial side. Mr. Nelson has requested a funding scenario from TxDOT to see what changes would happen if the MPO decided to expand.

James McGill provided a brief overview of the KTMPO FY2022 APER that is submitted to TxDOT every year.

Item 5:
FY23-26 TIP and 2045
MTP Amendments

FY23-26 TIP and 2045 MTP Amendments

TIP Background

The Transportation Improvement Program (TIP) is a 4-year transportation planning document that includes a detailed listing of projects reasonably expected to begin within a four-year period. The current TIP covers FY21-FY24 and a proposed TIP undergoing review covers FY23-26. Projects included in the TIP must be consistent with the MTP and are chosen based on regional priority and available funding. An amendment to a TIP is not completed until the change has also been included in the STIP—Statewide Transportation Improvement Program.

MTP Background

The Metropolitan Transportation Plan (MTP) is the 25-year long range planning document for KTMP. The 2045 MTP includes a short and long-range prioritized project listing incorporating projects expected to be funded within the document's 25-year planning horizon. The project listing is fiscally constrained based on the projected funding the MPO expects to receive in the 25-year planning period. The document also lists regionally significant unfunded projects. Projects must be included in the funded section of the MTP in order to receive state or federal funding.

Amendments to the FY23-26 TIP and 2045 MTP

- a) B45-03 – 13th Ave Sidewalk Improvements
 - Let date change
- b) H30-05b – Warriors Path Phase II
 - Let date change
- c) S45-01 – Royal Street Improvements
 - Scope of work and funding change
- d) T40-13a – Georgetown Railroad Trail Phase 1

Subject: Request to move letting date- 13th Avenue SUP CSJ:0909-36-169

Good Afternoon James,

I am writing to request moving the proposed letting date for the 13th Ave SUP project from August 2023 to November 2023 (FY'24).

We had some delays in receiving the approved AFA for this project, which in turn delayed starting the design of this project.

KPA Engineering is now off and running with the design for this project and we had our first project meeting earlier this month. We anticipate having 30% design plans sometime in May.

Thank you for your time with this request and we look forward to sharing updates on this exciting project with you all soon.

Sincerely,

Please take a moment to complete the City of Belton [Customer Satisfaction Survey](#).

James McGill
Planning Manager
Killeen-Temple Metropolitan Planning Organization
2180 N. Main Street
P.O. Box 729
Belton, TX 76513

Dear James:

The purpose of this letter is to formally request a change in scope for the Royal Street Project (0909-36-183).

Specifically, the Village requests the scope be revised from *"Pulverize the existing asphalt, stabilize the remaining base and apply two inch HMAC surface along Royal Street from Smith Branch Rd to FM 2268; install ribbon curb on both sides of the road"* to *"Mill and overlay existing asphalt with two inch HMAC surface along Royal Street from Smith branch Road to FM 2268; install ribbon curb on both sides of the road; install sidewalk from Center Circle to FM 2268 on at least one side of the road; drainage ditch improvements"*

The revision in scope is required due to an increase in construction costs since this project was originally programmed. The revised scope is anticipated to utilize the full amount programmed, \$1,005,200.00, as the latest cost estimate for the project is \$1,023,008.38.

Please program a let date of October 2023.

Thank you in advance for moving this request through the approval process as quickly as possible.

Thank you,

Don Ferguson
Village Administrator

Item 6:
FY22 APL Report

FY22 Annual Project Listing (APL) report

Each Fiscal Year (FY), all MPO's are required by TxDOT to submit a listing of all projects completed in their region during that FY. This listing includes highway, bike & pedestrian, and grouped (maintenance, bridge, etc.) projects.

TxDOT notified all MPOs this year that 23 CFR 450.334 requires each MPO to seek public input for the APL. This would be in accordance with the MPOs public participation plan and be similar to the process we go through for our TIP and MTP amendments.

TxDOT is requesting that all MPOs to obtain approval from Policy Board for the final version of the document.

See attached for KTMPO's FY22 Annual Project Listing.

Schedule:

- May 3, 2023 – TAC considers recommending initiation of public involvement for the FY22 APL;
- May 17, 2023 – TPPB considers initiation of public involvement for the FY22 APL;
- May 22, 2023 – June 5, 2023: 15-Day Public Comment Period.
- May 25, 2023 – Public Hearing: 5:30 PM @ CTCOG Offices

FY23

Date	Name	Means of Public Comment	Public Comment	Date Comment First Presented to TAC/TPPB	Public Comment Topic	Jurisdiction
4/4/2023	Matthew Blake	Facebook Post	It's time to rebuild Adams avenue bridge where the service road comes up to the traffic light instead of what is currently in place. And there should be an on-ramp from airport to Adams before Adams not way down the road where the traffic accidents happen from people coming on at Adams to the loop. Old designs you don't help modern traffic flows and population.		Adams Avenue Bridge	City of Temple
4/4/2023	Adam Welborn	Facebook Post	This [Adams Avenue Bridge] spot has always been excessively dangerous. I myself have dodged being hit over 5 different times when exiting the loop. This has been due to the lack of drivers yielding, as they should, to exiting traffic. I do not have faith that this will resolve the issue. It's just a badly designed exit, even with the new paint on the road.		Adams Avenue Bridge	City of Temple

Grant Opportunities

- **Charging and Fueling Infrastructure (CFI) Discretionary Grant Program**

Deadline: May 30, 2023

Department of Transportation

Description: The Charging and Fueling Infrastructure Discretionary Grant Program (CFI Program) is a new competitive grant program created by President Biden's Bipartisan Infrastructure Law to strategically deploy publicly accessible electric vehicle charging and alternative fueling infrastructure in the places people live and work, urban and rural areas alike, in addition to along designated Alternative Fuel Corridors (AFCs). CFI Program investments will make modern and sustainable infrastructure accessible to all drivers of electric, hydrogen, propane, and natural gas vehicles. This program provides two funding categories of grants: (1) Community Charging and Fueling Grants (Community Program); and (2) Alternative Fuel Corridor Grants (Corridor Program). The Bipartisan Infrastructure Law provides \$2.5 billion over five years for this program. This first round of funding makes \$700 million from Fiscal Years 2022 and 2023 funding available to strategically deploy electric vehicle (EV) charging infrastructure and other fueling infrastructure projects in urban and rural communities in publicly accessible locations, including downtown areas and local neighborhoods, particularly in underserved and disadvantaged communities.

Estimated Funding Available: \$700,000,000

Award Floor: \$500,000

- **The Wildlife Crossing Pilot Program**

Deadline: August 1, 2023

Description: The primary goals of the WCPP are to save lives, prevent serious injuries, and protect motorists and wildlife by reducing WVCs, and improve habitat connectivity for terrestrial and aquatic species. Reduction of wildlife vehicle collisions and improvement of terrestrial and aquatic habitat connectivity are the primary merit criteria that will be used in reviewing applications, and each of the primary merit criteria are of equal importance.

Estimated Funding Available: \$111,850,000

- **Promoting Resilient Operations for Transformative, Efficient, and Cost-Saving Transportation (PROTECT) Program**

Deadline: August 18, 2023

Description: The vision of the PROTECT Discretionary Grant Program is to fund projects that address the climate crisis by improving the resilience of the surface transportation system, including highways, public transportation, ports, and intercity passenger rail. Projects selected under this program should be grounded in the best available scientific understanding of climate change risks, impacts, and vulnerabilities. They should support the continued operation or rapid recovery of crucial local, regional, or national surface transportation facilities. Furthermore, selected projects should utilize innovative and collaborative approaches to risk reduction, including the use of natural infrastructure, which is explicitly eligible under the program. Also called nature-based solutions, these strategies include conservation, restoration, or construction of riparian and streambed treatments, marshes, wetlands, native vegetation, stormwater bioswales, breakwaters, reefs, dunes, and shade trees. They reduce flood risks, erosion, wave damage, and heat impacts while also creating habitat, filtering pollutants, and providing recreational benefits. Projects in the PROTECT Discretionary Grant Program have the potential to demonstrate innovation and best practices that State and local governments in other parts of the country can consider replicating.

Estimated Funding Available: \$848,000,000

Award Floor: \$100,000

Notes:

¹Project score, project ranking and prioritized list is based on the scoring criteria at the time those projects were selected for funding.

²Note: Estimated Cost shows the **approved construction amount** for each project covered by federal and state sources. Categories 2 & 9SRTS are 100% covered by these sources, Categories 7 & 9TAP are 80% covered by these sources. See latest KTMPO TIP for full project financial information.

³Estimated Let Date for TIP projects based on latest information provided by TxDOT and the project sponsor. For Long Range projects, the date listed was provided by the sponsor when they submitted the project.

⁴Environmental considerations is based on the environmental conditions when that project was selected for funding and/or when project was submitted to KTMPO. Use key below for identification purposes.

⁵Fiscal Constraints are determined by inputs into the TRENDS model as approved on March . Short range funding is estimated funding for FY2019-2028 and Long Range Funding is estimated funding for FY2029-2045

⁶**Funding/Fiscal Constraint Notes (Cat 2, 7, 9):**
Short Range funding amounts (0-10 years) come from the latest TxDOT Unified Transportation Plan (UTP).
Long Range funding amounts (10-15 years) are determined by outputs from the TRENDS model (see note ⁵)

How projects in the list are funded:
White - Projects in the TIP are listed first, their total estimated cost is deducted from the total UTP fiscal constraint.
Green - The remaining UTP funding is then allocated to the next highest ranked projects from both the Roadway and Livability tracks until the funding cap is reached. Green colored projects are projected to receive funding within the first 10 years of the planning period.
Blue - Projects following the Short Range funding section are allocated funds from the estimated Long Range MTP funding from highest ranking on down until the funding cap is reached. Blue projects are projected to receive funding during the last 15 years of the planning period.
Orange - When all estimated funding sources have been exhausted, any remaining projects are listed from high to low in the Regionally Significant Unfunded list. Orange projects are NOT projected to receive funding during the planning period
Yellow - Projects that are unscored are listed at the bottom of each section and have no estimated timetable for receiving funding.

Note on Roadway vs Livability Tracks:
Projects in the Livability Track are allocated funding from the latest Category 7 and Category 9 funding estimates.
Projects in the Roadway Track are allocated funding from the latest Category 2 and Category 7 funding estimates.

Current UTP Estimates by Category (2021-2030):
Category 2 - \$189,232,733
Category 7 - \$61,317,869
Category 9 - \$3,940,100

Current MTP Estimates by Category (2030-2045):
Category 2 - \$115,800,000
Category 7 - \$216,900,000
Category 9 - \$41,600,000

*Note - funding for projects in this list is not guaranteed unless the project is listed in the TIP, all other project funding is subject to change.
