Item 5:
Major Activity Centers in the
KTMPO Region

Major Activity Centers in the KTMPPO Region

At the March TAC meeting, staff presented a draft list of peak-period, traffic-generating Major Activity centers in the KTMPPO area for review. This updated list captured locations that matched the intent of the criterion listed in the approved scoring process but were inadvertently missed in the original list used for scoring. Staff clarified that major activity centers included colleges/universities, elementary schools, middle schools, high schools, major hospitals, airports, Fort Hood, and large commercial areas.

Following the discussions held regarding the large commercial areas in the list, staff ran several scenarios to show how different employment thresholds affected the objective scores and presented those scenarios to the TAC. A summary of the changes and an updated activity list are included in the packet.

Action Needed: Approval of KTMPPO Major Activity Centers list and an addendum to the Project Scoring Process adding the approved list with a technical memo.

Q&A Session on Project Objective Scores

The objective scores for projects submitted during the the Reprioritization of the 2045 MTP are included in the meeting packet.

Staff has designated this time for a Q&A session with the TAC regarding how projects scored objectively. The consultant who conducted the objective scoring portion of the process is available to assist in answering any questions.

Action Needed: No action needed; for discussion only.

Item 7:

**Final Project Rankings for 2045
MTP Reprioritization**

Project Rankings for the 2045 MTP Reprioritization

Provided the approval of Major Activity Centers in the KTMPPO Region and the discussion of objective scoring outcomes in the previous agenda items, the projects are now to be considered for bonus points and approval of project rankings. At the next TAC meeting, TAC will develop a prioritized list of projects from the list of ranked projects. The prioritized list may be the same as the ranked list, or the prioritized list may reflect additional adjustments.

Project Ranking:

It is important to note that project ranking merely represents the calculated outcome (i.e. scores) of the developed criteria and scoring process with the addition of bonus points, if applicable. The desire is also that project ranking remains as true to the developed process as possible. Project ranking does not guarantee priority or funding order.

Bonus Points:

The assignment of bonus points is intended to provide flexibility for special situations and to provide better documentation and transparency for the normal give-and-take inherent to any process involving subjective scoring. The assignment of bonus points is subject to specific criteria:

- The project must have some prominent characteristic which is not adequately covered by the selection criteria. A project to correct for unintended consequences or to fine-tune the performance of a previously constructed project would also qualify for this criteria.
- The characteristic must have a regional benefit.
- The reasoning for the assignment of bonus points must be discussed openly, and must be documented.

Action Needed: Discussion of projects to be considered for bonus points, if applicable; Approval of final project rankings for the MTP Reprioritization.

Item 8: Priority Ranking of Projects

Prioritization of Project Rankings for the 2045 MTP Reprioritization

As previously mentioned, at the next TAC meeting, TAC will develop a prioritized list of projects from the list of ranked projects. The prioritized list may be the same as the ranked list, or the prioritized list may reflect additional adjustments. This task accommodates warranted priority requests due to projects not performing well in the project ranking.

Action Needed: Discussion of prioritization of project rankings.

Item 9:

**Prioritization and Approval of
Proposed FY21 Special Studies**

FY21 Special Studies

At the last two meetings, staff has presented proposed FY21 Special Studies to the TAC for consideration, feedback, and prioritization. A list of these studies is provided below.

Staff requests the TAC create a ranked prioritized list of studies and also select studies for funding in FY21. The FY20-21 UPWP is currently being modified to allow \$150,000 for Special Studies in FY21.

Two general approaches are used to define a policy: either applying Complete Streets treatments to every street or defining layers of modal networks and determining the appropriate mix of treatments for each street.
- Estimated Time Frame: 3 months
- Estimated Cost: \$20,000 to \$25,000

Evaluation of Transit Scoring Criteria

- Objective: Develop a separate transit scoring track with focused scoring criteria to document the transit funding process and encourage additional transit project development or submittal by KTMPPO entities.
- Estimated Time Frame: 1 month

TxDOT 2020 AADT Review

TxDOT 2020 AADT Review

The TxDOT Transportation Planning & Programming (TPP) Division collects annual traffic counts at thousands of locations across the state. They submit all traffic data collected during the previous year to the Federal Highways Administration (FHWA) each summer. Prior to submitting this data to FHWA, TPP makes the preliminary counts available to TxDOT Districts and partner MPOs for review.

Last year, the MPO reached out to each entity in the region and conducted one-on-one calls to review the traffic counts. The MPO would like to offer this opportunity again this year to entities that wish to look at and provide comments on traffic counts in their area. The review period for Districts and MPOs is open through Friday, April 9th.

Action Needed: No action needed; for discussion only.

Item 12: Public Input

Public Input Received

KTMPPO has been collecting public comments received online, via emails, public hearings, meetings, social media accounts, web maps and other forms of communication. Staff bring these to the TAC and TPPB on a regular basis to ensure the MPO boards are aware of public concerns and have the opportunity to respond accordingly. Public input received through the previous month is included in meeting packet.

Action Needed: No action needed; for discussion only.

KTMPO Public Comments

FY21

Date	Name	Means of Public Comment	Public Comment	Date Comment Was Presented to TAC	Public Comment Topic	Jurisdiction
12/22/2020	Sam Listi	Public Hearing	The 13th Avenue project is important to the community and is fully endorsed by the City Council. Some changes have been made to the specifics of the project, but the overall integrity is maintained. The project will provide great continuity in the city's overall sidewalk/trail system and will increase access from the center part of town to the expanding Heritage Park.	1/13/2021	Roadway	Belton
12/22/2020	Bob van Til	Public Hearing	Encouraged adoption of the project and recommended that the revised project be included in the updated TIP.	1/13/2021	Roadway	Belton
12/22/2020	Angellia Points	Public Hearing	Spoke in favor of the project. Proposed project scope is to reconstruct the sidewalk on the south side of the street as needed to be compliant with ADA. We are planning to install ADA compliant ramps on the south side at each street crossing as well as a crosswalk to Park Lane. THE project would also connect two TxDOT roadways, Main Street (SH 317) and Waco Road (FM 817). The project would also add striping for bike lanes. Believes project provides much needed connectivity for Belton.	1/13/2021	Roadway	Belton

Notes:

¹Project score, project ranking and prioritized list is based on the scoring criteria at the time those projects were selected for funding.

²CMP network is based on the network when that project was selected for funding and/or when project was submitted to KTMPO.

³Environmental considerations is based on the environmental conditions when that project was selected for funding and/or when project was submitted to KTMPO. Use key below for identification purposes.

Environmental Considerations	
Symbol	Description
EJ	Environmental Justice Community of Concern
L	Landfill
H	Cemeteries, Archaeological Sites, Historical Markers
ARZ	Aquifer Recharge Zone
ES	Endangered Species
P	Park

⁴Fiscal Constraints are determined by inputs into the TRENDS model as approved on March . Short range funding is estimated funding for FY2019-2028 and Long Range Funding is estimated funding for FY2029-2045

⁵Project is a combination between C35-02a and C35-02b. Project C35-02b was the top prioritized livability project.

⁶Project H40-03 Chaparral Rd original score, project ranking, and prioritized list order was 60.51, 25 and 30 respectively.

⁷KTMPO received a total of 69 roadway projects with an estimated total cost of \$1,008,785,911. Roadway prioritized list was recommended by TAC on November 28, 2018. During this process, five bonus points were added to projects that lie on a freight corridor as notated in the Regional Multimodal Plan as approved by TPPB on October 24, 2018. After assigning bonus points, each submitting entities' top roadway project was moved to the top of the list. The order was based on the total number of points for those top roadway projects. All remaining projects were ranked based on total project score. Other changes to the ranked list included swapping projects N40-03 and H30-05 and moving project H40-03 to the unfunded list since K30-13 overlaps with this project. Each change was discussed and agreed to during the 11/28/2018 TAC meeting. Prioritize list is not the order of funding and allocation of funds is based on various factors such as but not limited to project ranking, project readiness, funding availability and project need. During discussion, it was decided that project T15-06k will retain its rank, however, this project will be skipped if this project is a candidate for funds.

⁸Note: KTMPO recieved a total of 27 livability projects with an estimated total cost of \$34,939,442. Livability ranked list was recommended by TAC on November 28, 2018. During this process, five bonus points were given to projects that were deemed a priority by BPAC (C35-02b, T40-13, N40-04, B45-01, and B45-05). Bonus points were proposed to projects B45-03 and B45-05 from the City of Belton based on fatalities that occurred in 2018 along these routes. Crash rates were calculated based on data from 2013-2017. Project B45-03 recieved four bonus points as discussed by TAC at the November 28, 2018 meeting. Project B45-05 would've recieved bonus points to accomodate the fatality along this route, however, this project was given the maximum number of bonus points since this project was a BPAC priority route. After bonus points were assigned each submitting entities top livability project was moved to the top of the list. Each submitting entities top priority livability project was ranked based on total score. Prioritize list is not the order of funding and allocation of funds is based on various factors such as but not limited to project ranking, project readiness, funding availability, and project need.

⁹**Funding/Fiscal Constraint Notes (Cat 2, 7, 9, 11):**

Short Range funding amounts (0-10 years) come from the latest TxDOT Unified Transportation Plan (UTP).

Long Range funding amounts (10-15 years) are determined by outputs from the TRENDS model (see note ⁴)

How projects in the list are funded:

White - Projects in the TIP are listed first, their total estimated cost is deducted from the total UTP fiscal constraint.

Green - The remaining UTP funding is then allocated to the next highest ranked projects from both the Roadway and Livability tracks until the funding cap is reached. Green colored projects are projected to receive funding within the first 10 years of the planning period.

Blue - Projects following the Short Range funding section are allocated funds from the estimated Long Range MTP funding from highest ranking on down until the funding cap is reached. Blue projects are projected to receive funding during the last 15 years of the planning period.

Orange - When all estimated funding sources have been exhausted, any remaining projects are listed from high to low in the Regionally Significant Unfunded list. Orange projects are NOT projected to receive funding during the planning period

Yellow - Projects that are unscored are listed at the bottom of each section and have no estimated timetable for receiving funding.

Note on Roadway vs Livability Tracks:

Projects in the Livability Track are allocated funding from the latest Category 9 funding estimates only.

Projects in the Roadway Track are allocated funding from the latest Category 2 and Category 7 estimates.

Current UTP Estimates by Category (2021-2030):

Category 2 - \$189,232,733

Category 7 - \$61,317,869

Category 9 - \$3,940,100

Current MTP Estimates by Category (2030-2045):

Category 2 - \$115,800,000

Category 7 - \$216,900,000

Category 9 - \$41,600,000

Category 11 - \$31,400,000

*Note - funding for projects in this list is not guranteed unless the project is listed in the TIP, all other project funding is subject to change
