The Killeen-Temple Metropolitan Planning Organization is committed to compliance with the Americans with Disabilities Act (ADA). Reasonable accommodation and equal opportunity for effective communications will be provided upon request. Please contact the KTMP O office at 254-770-2200 at least 24 hours in advance if accommodation is needed.

Proposed Regional Active Transportation Plan

Background

KTMPO adopted the Regional Multimodal Plan (RMP) on September 20, 2018. The plan explored ways to adapt to evolving transportation modes by shifting the focus to a broader approach that included biking, walking, and public transit.

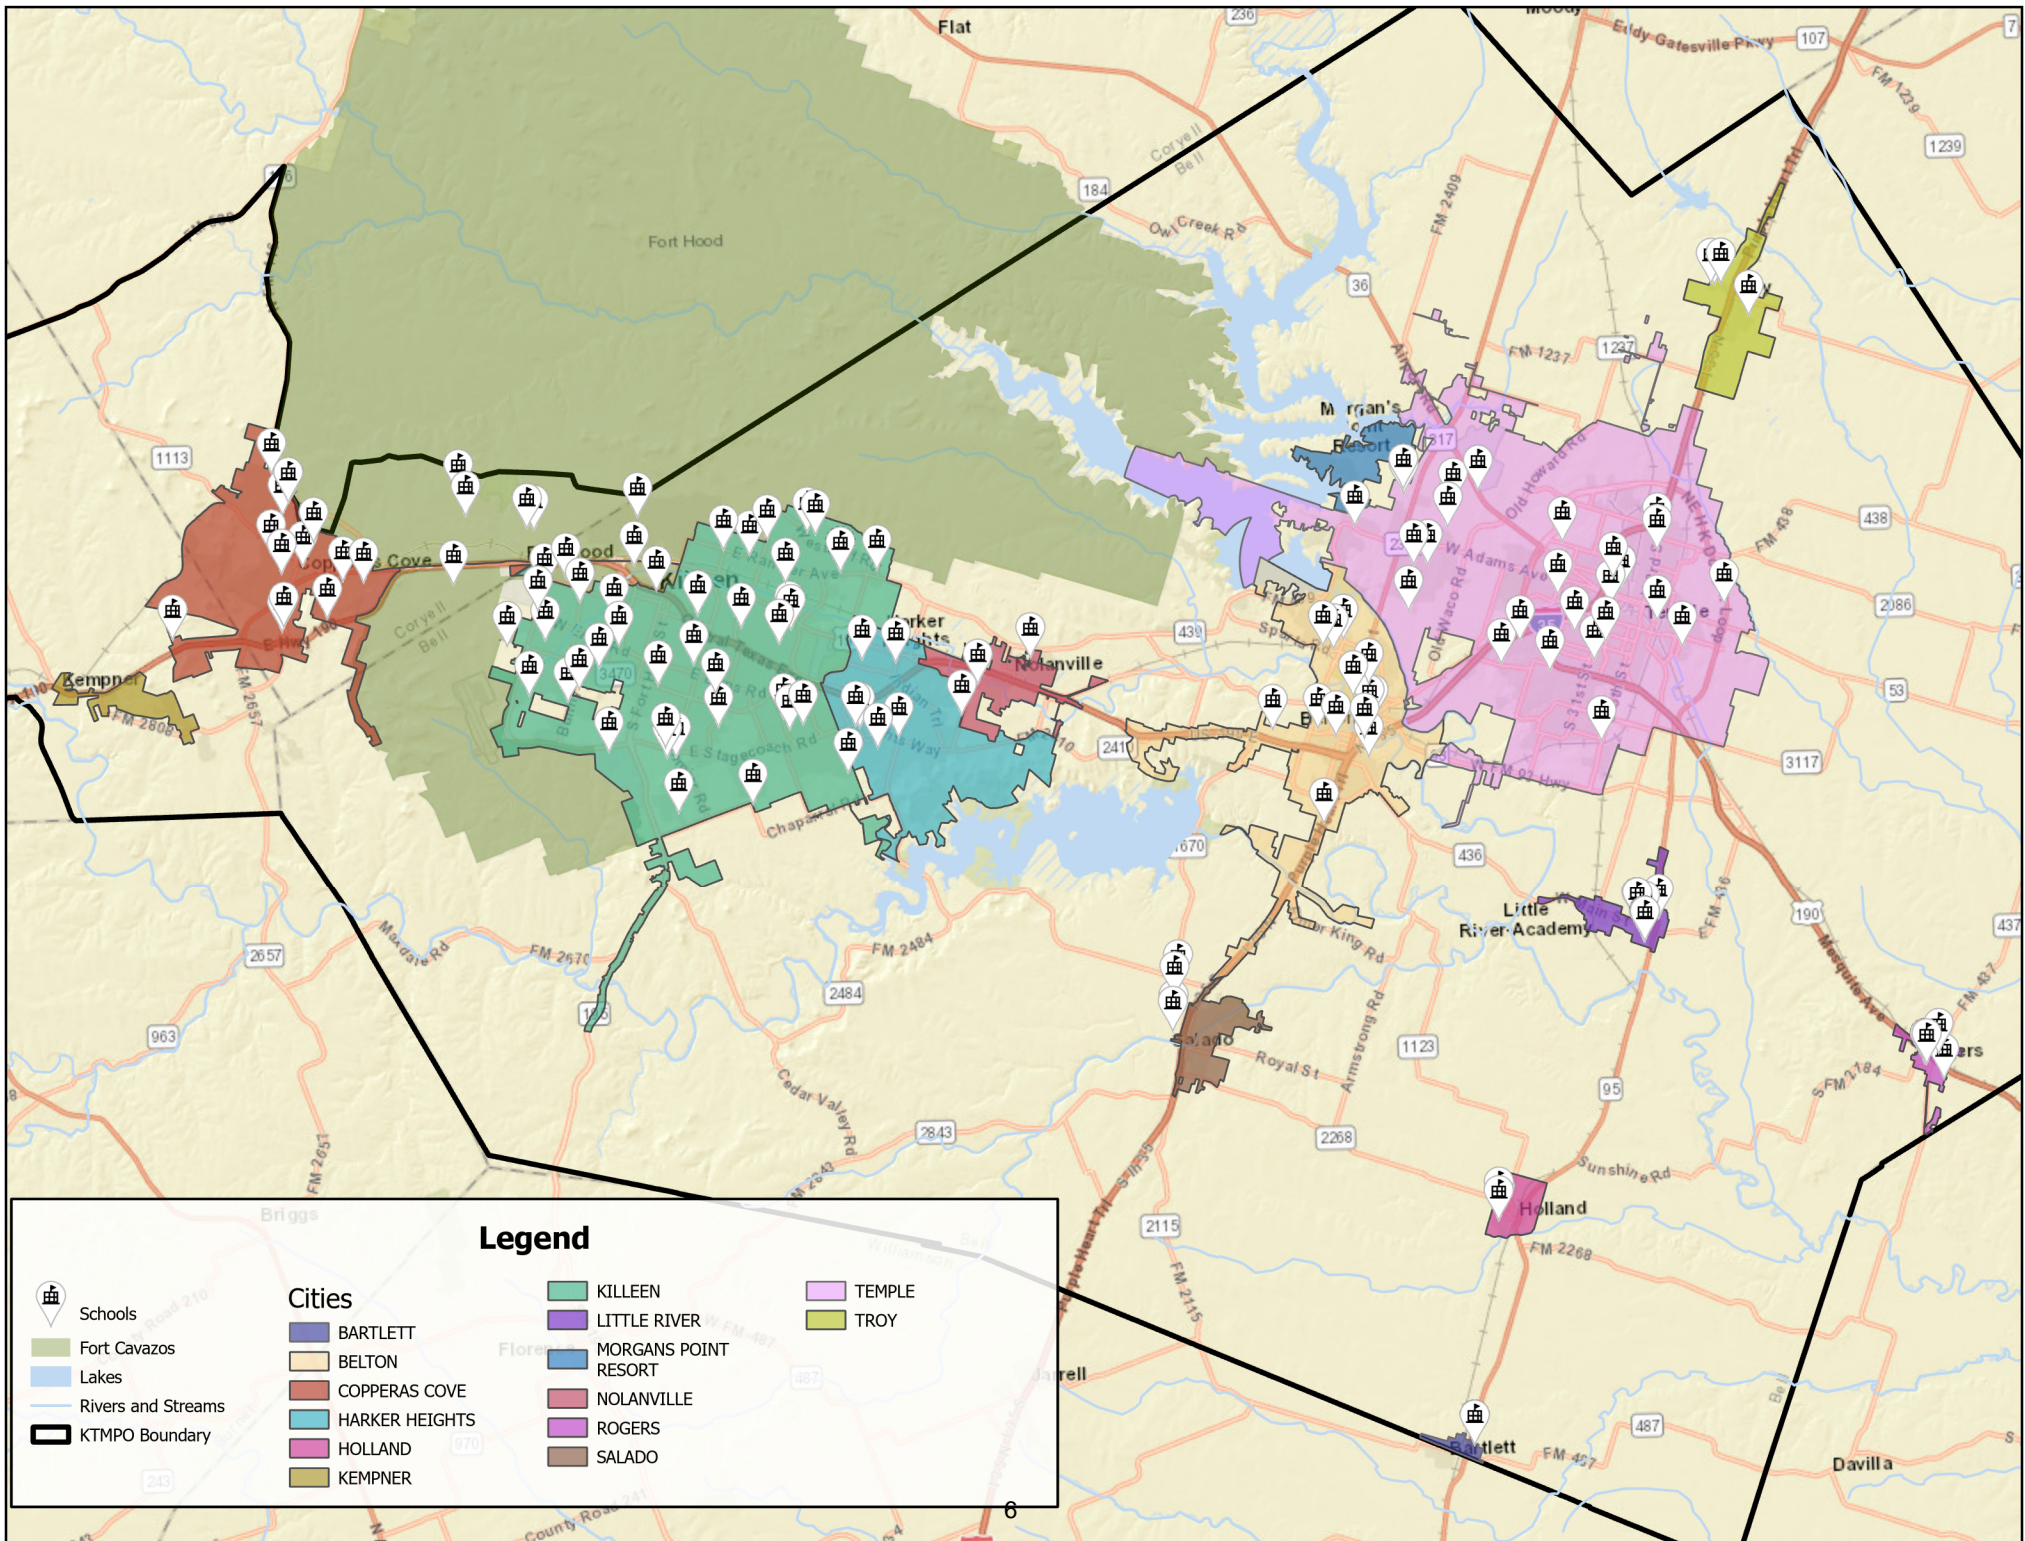

In 2020, The Texas Department of Transportation (TxDOT) began the Texas Active Transportation Plan Inventory. In the Fall of 2023, TxDOT conducted a combined outreach effort for the Statewide Active Transportation Plan and the Statewide Multimodal Transit Plan. The Existing State of Active Transportation Report was made available in February 2025.

During the September 11, 2024, BPAC meeting, KTMPO staff recommended developing a Regional Active Transportation Plan that identifies opportunities for multi-jurisdictional trail connections and to promote innovative strategies that support walking, cycling, and other forms of active transportation.

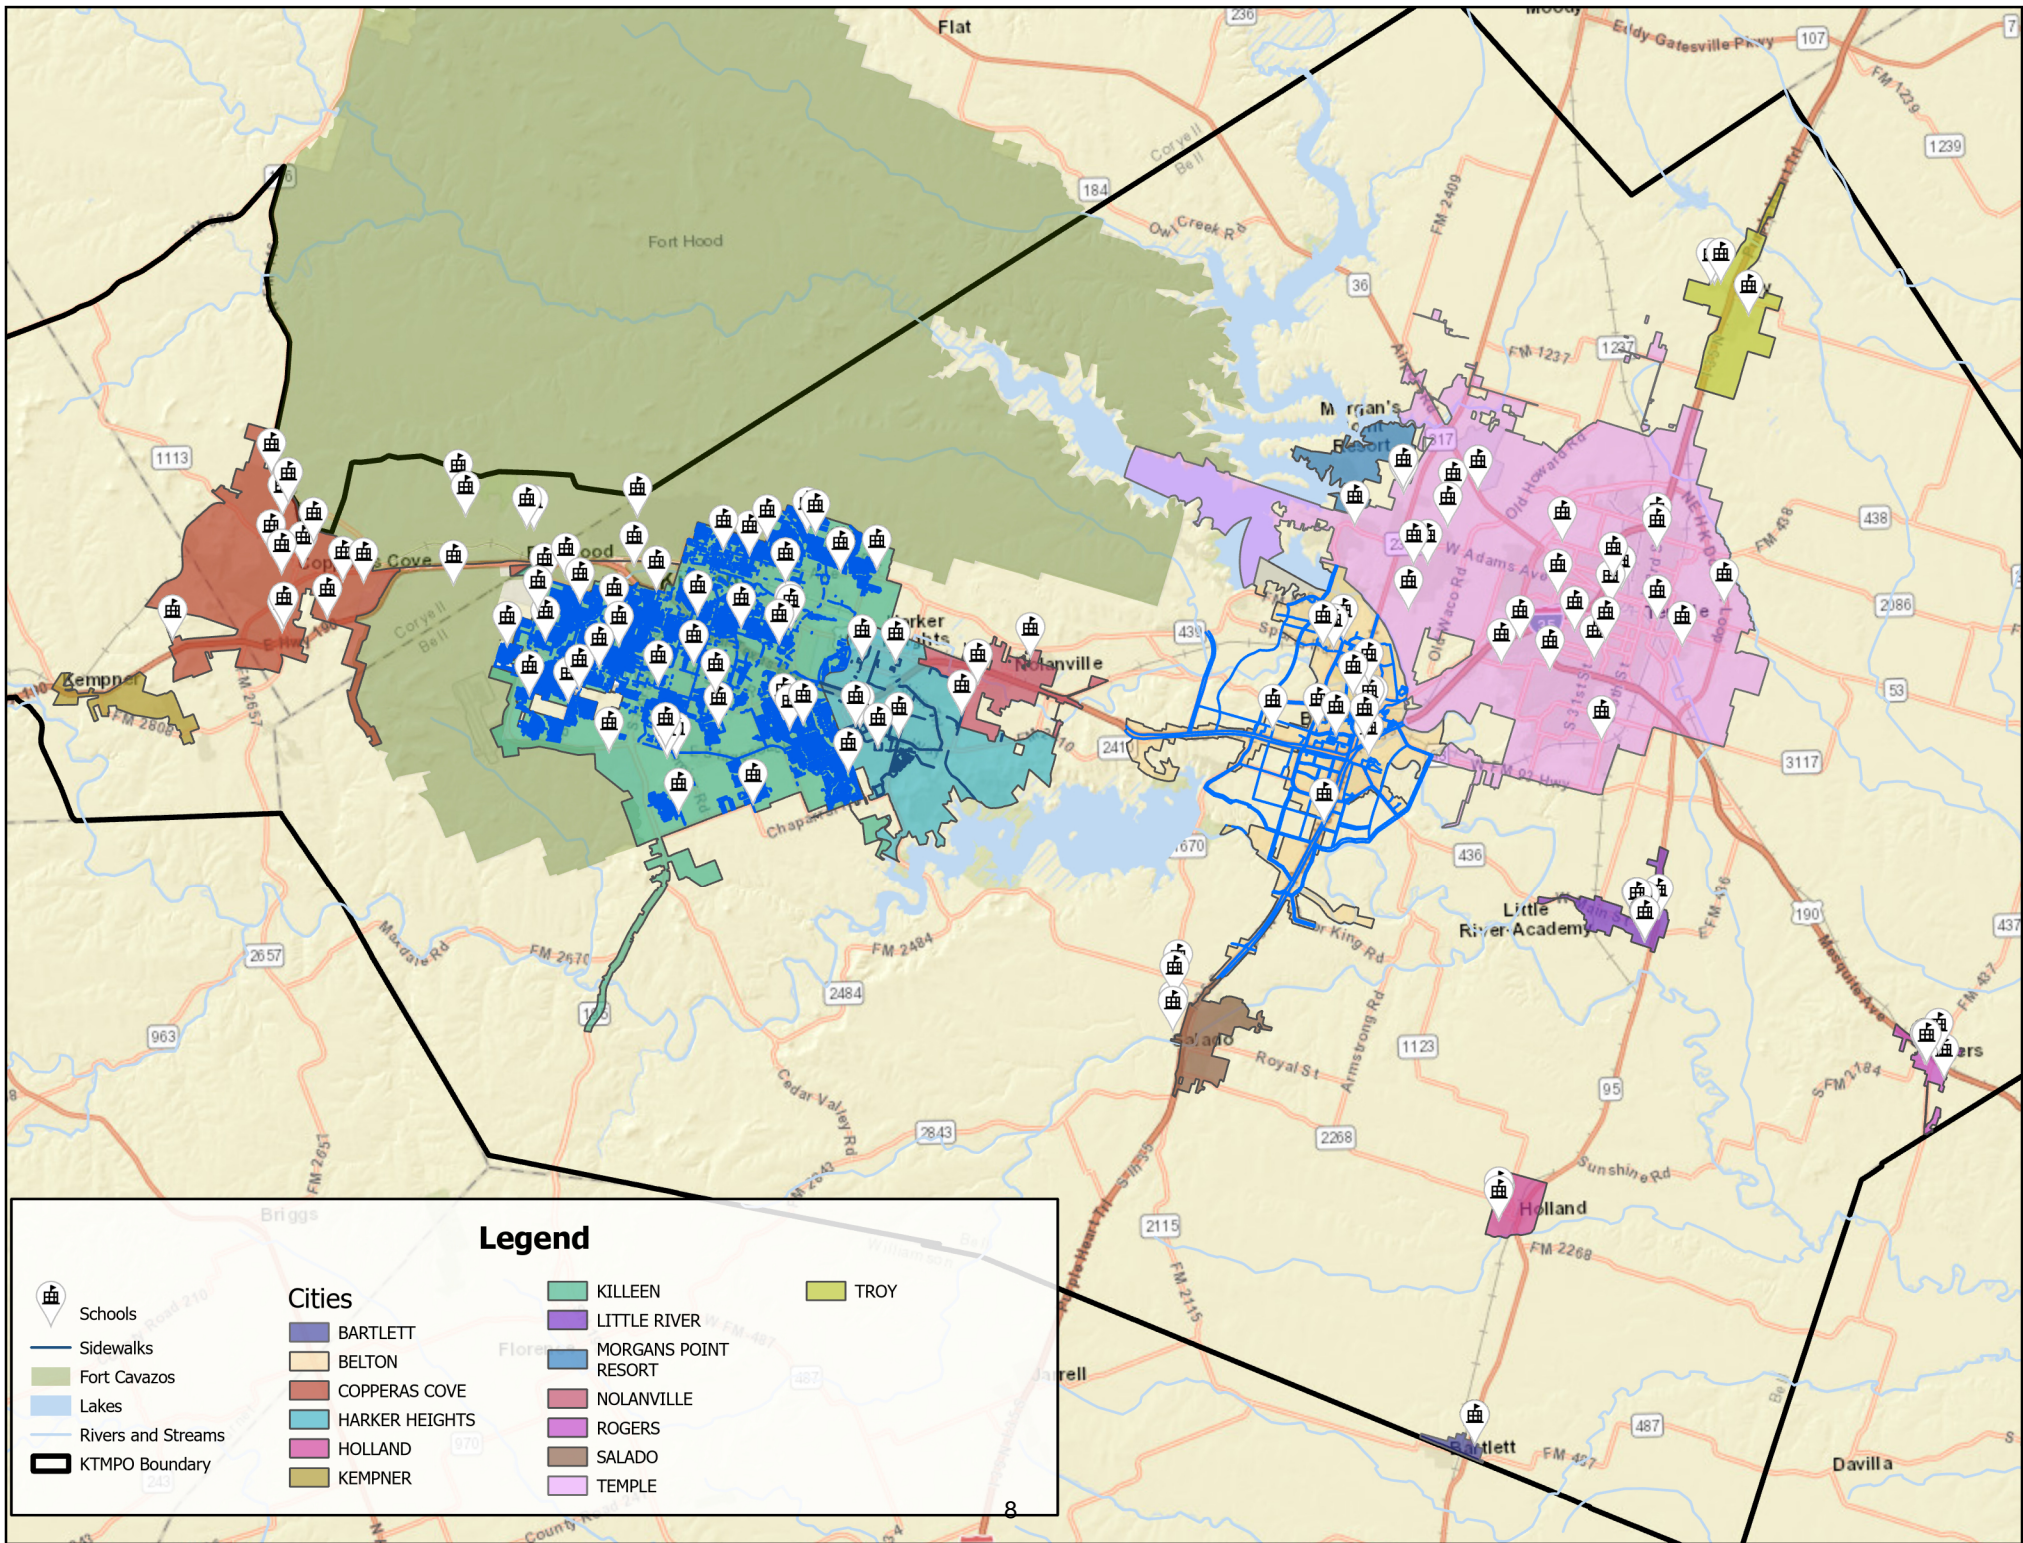

Objectives

- Develop a comprehensive GIS-based inventory to support the creation of a Regional Active Transportation Plan, identifying existing infrastructure, gaps, and opportunities for walking, biking, and rolling (micromobility).
- Utilize public engagement, TAC/PB and ATAC to prioritize desired connectivity in the development of the regional Active Transportation Plan.
- The proposed Regional Active Transportation Plan will focus on integrating safe routes to school, sidewalks, bike paths, transit stops, parks, and shared-use paths across the region.
- The plan demonstrates planning readiness, improves grant competitiveness, will help prioritize projects and encourages multimodal integration.
